

ENERGY-SAVING OPPORTUNITY FOR BUSINESS

Commonwealth Government-funded business grant

Australian Government

Save money on energy by accessing grant money from the Commonwealth Government

The Commonwealth Government is assisting businesses and community organisations to improve energy efficiency practices and technologies and better manage energy consumption to reduce their power bills through the [Energy Efficient Communities Program – High Energy Using Business Grants](#).

This grant opportunity is for high energy using businesses with an annual net energy consumption of more than 0.05 PJ per year with up to \$25,000 in grant money being made available.

How much money is the Government making available?

The grant amount will be up to 50% of eligible project costs. The minimum grant amount is \$10,000, and the maximum grant amount is \$25,000. You are responsible for the remaining eligible project expenditure plus any ineligible expenditure.

Are you eligible for this program?

Your business must have an ABN and have a net energy consumption of more than 0.05 PJ per year across all activities conducted by your business, and across all fuel types.

Your project must be supported at senior management level, and you need to be able to complete the project and meet the costs of the project not covered by grant funding. If you have ceased operating as a result of bushfires or COVID-19, you need to certify that you intend to resume operating as a business in the future.

Eligible projects include:

- Replacing existing equipment with higher efficiency equipment
- Installing or replacing a component to help an existing system run more efficiently
- Energy audits
- Investment feasibility studies for energy efficiency upgrades
- Monitoring of energy consumption and greenhouse gas emissions

How does it work, and what will you need to do?

Once you have determined whether you are eligible for this support, you will need to [email us](#). For the businesses we can support, we will help you complete an application form and liaise with the Commonwealth Government to secure your participation in the program.

We can help you across the full breadth of eligible projects, ranging from performing an energy audit, developing a feasibility study for an energy efficiency upgrade, helping you go to market for more energy-efficient equipment, or assisting you with monitoring your energy consumption and GHG emissions.

How to apply:

If you are a medium to a large manufacturer, this opportunity is for you. Please send an email to patrick@100percentrenewables.com.au or call Patrick at 0408 413 597. Please include the following details:

1. Name and address of your business
2. Describe your main business activity
3. Your contact details
4. How much you spend on energy in a year
5. Two recent bills for electricity and gas, if applicable
